

WARHAMMER 40,000 CODEX: CULT MECHANICUS

Official Update for 7th Edition, Version 1.0

Although we strive to ensure that our rules are perfect, sometimes mistakes do creep in, or the intent of a rule isn't as clear as it might be. These documents collect amendments to the rules and present our responses to players' frequently asked questions. As they're updated regularly, each has a version number; when changes are made, the version number will be updated, and any changes from the previous version will be highlighted in **magenta**. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

FAQs

Q: The Dominus Maniple Formation lists '1 Onager Dunecrawler' as part of the Formation. Can additional Onager Dunecrawlers be purchased for this unit?

A: No. The Formation entry is not for a unit of Onager Dunecrawlers, but a single model.

Q: Can models embarked on a vehicle that fire at Kastelan Robots (whether through Fire Points or in Open-topped Transports) have shots reflected back at them because of the Repulsor Grid special rule? Can units that are able to Jink do so against reflected shots?

A: Any shots reflected back at them will hit the vehicle. Units cannot Jink against reflected shots.

Q: If a unit such as the Kataphron Destroyers deals an unsaved Wound using their phosphor blasters, then does the 1-point reduction in cover save from the Luminagen special rule apply to the same unit's heavy grav-cannons if fired afterwards?

A: Yes.
