

WARHAMMER 40,000:

THE RULES

Official Update Version 1.0

Although we strive to ensure that our rulebooks are perfect, sometimes mistakes do creep in. When such issues arise, we feel that it is important to deal with them as promptly as we can, and we therefore produce regular updates for all of our rulebooks. When changes are made, the version number will be updated, and any changes from the previous version will be highlighted in **Magenta**. Where a version number has a letter, e.g. 1.1a, this means it has had a local update, only in that language, to clarify a translation issue or other minor correction.

Each update is split into three sections: Amendments, Errata and 'Frequently Asked Questions'. The Errata corrects any mistakes in the rulebook, while the Amendments bring the rulebook up to date with the latest version of the rules. The Frequently Asked Questions (or 'FAQ') section answers commonly asked questions about the rules. Although you can mark corrections directly in your rulebook, this is by no means necessary – just keep a copy of the update with your rulebook.
